

THE HOUSEKEEPER'S PROBLEM.

THE FACTS OF THE CASE.

The tendency of the times is for your governed to prefer work in office or factory rather than doing housework. Yet the work in the office or factory is usually more nerve-racking because it is a constant repetition of work at high speed—a tension which there is no relaxation. On the other hand the housekeeper, if she be a mother of a large family, is weighed down with worries and cares—her housework is beyond her strength, perhaps, yet if she studies her work, puts her housework on a business basis and manages well, she can easily take twenty minutes or haif an hour in the middle of the day to completery relax. By complete relaxation, Dr. Pierce means that the tired woman should lie of her back without pillow or bolster; let every muscle be at rest. Put a tamp cloth over the eyes to rest them. Think of nothing, or as near nothing as you can. If the brain is still occupied with plans or worries, count
